The screenshot shows a web browser window with the title "Welcome to the Quantum GIS Project". The address bar displays "http://qgis.org/". The browser's tab bar shows several open tabs, including "linfiniti.com", "/branches - ...", "SourceForge.n...", "Quantum GIS", "Internet Archi...", "(Untitled)", and "Welcome to t...". The main content area of the browser displays the Quantum GIS website. The website has a dark blue header with the Quantum GIS logo on the left and a search bar on the right. Below the header is a navigation bar with links to "QGIS Wiki", "QGIS Blog", "QGIS Forum", and "QGIS Bugs". The main body of the website features a large banner with the text "Quantum GIS Version 1.0.0 'Kore'" and a paragraph about the QGIS Developer Meeting in Hannover, Germany. On the left side, there is a "Main Menu" section with links to Home, About QGIS, Community, Documentation, Download, Commercial Support, Sponsorship, and Advanced Search. Below this is a "Support QGIS!" section with a "Make A Donation" button. The right side of the page contains a "Welcome to the Quantum GIS Project" section with three paragraphs of text.

Welcome to the Quantum GIS Project

Quantum GIS (QGIS) is a user friendly Open Source Geographic Information System (GIS) licensed under the GNU General Public License. QGIS is an official project of the Open Source Geospatial Foundation (OSGeo). It runs on Linux, Unix, Mac OSX, and Windows and supports numerous vector, raster, and database formats and functionalities.

Quantum GIS provides a continously growing number of capabilities provided by core functions and plugins. You can visualize, manage, edit, analyse data, and compose printable maps. Get a first impression with some screenshots and a more detailed feature list.

Quantum GIS is a volunteer driven project. We welcome contributions from in the form of code contributions, bug fixes, bug reports, contributed documentation, advocacy and supporting other users on our [mailing lists](#) and the [QGIS Forum](#). If you are interested in actively supporting the project, you can find more information under the development menu and on the [QGIS Wiki](#). We also welcome financial contributions in the form of sponsoring and funding.
